tomasz kocłęga

Born in 1968.

Kocłęga studied at the Academy of Fine Arts in Krakow and graduated in 1993. He is teaching at the Academy of Fine Arts in Katowice. He also taught in foreign universities in Finland, United States and the Czech Republic.

Works

The creations of Tomasz Kocłęga have always been centered on human nature, with its desires, emotions and dreams.

This fascination delimits the domain of its creative activities, which express the most often with a figurative sculpture. His refined sense of form allows spectators to explore and discover the truth on the man. The emotional and the intellectual are condensed into the deformed human body of which silent gestures become an alphabet to express universal values.

Characteristic for Kocłęga's bronze sculptures are the dynamic composition and method of combining bronze with other materials, such as glass or stones. The added objects play an important role as attributes that determine the importance of the overall composition.

Kocłęga presented his works at many exhibitions in the public space, in countries like: the United States, Japan, China, South Korea, Taiwan, Hong Kong, the Czech Republic, France, Russia, Belgium, Germany, Great Britain, Austria, Finland, Slovakia, and many Polish cities.

His sculptures are permanently located in the United States, India, Lithuania, in the Czech Republic and Poland.

His biggest, monumental work, casted in bronze, is sculpture „Inner Balance”. The giant work is permanently placed in New Delhi, India.
